If you have a problem reaching an emergency number, dial "0" operator. Tell the operator the number you are calling from, the type of help needed, the community name and the street address. Stay on the line with the operator.

warning

emergency calls on party lines—State law requires you to hang up the receiver of a party line telephone immediately when told the line is needed for an emergency fire or police call or for medical aid or ambulance service. It is also unlawful to take over a party line by stating falsely that the line is needed for an emergency. The law defines an "emergency" as a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential.

SERVICE

To order, change, or stop service, contact our Business Office. Our customer representatives will be happy to explain the types of services available. Please provide the following information when applying for service:

1) Street address
2) How you want your name to appear in the directory
3) Type of local service (refer to **CALLING INSTRUCTIONS**)
4) Credit information (see below)
5) Information about previous telephone service

CREDIT/DEPOSIT REQUIREMENTS

To apply for service you must establish credit. Credit may be approved by making a deposit equal to one-sixth of your estimated annual billing, or by other established credit arrangements. Deposits may be required on rented equipment as well. Additional deposits may be required as a result of late payment, disconnection, or nonpayment. Deposits are refunded with interest on your final bill or after one year provided your payments have been on time.

SERVICE CHARGES

Standard charges for installing and rearranging telephone service are in effect in all GTE locations. The one time service charges are based on a plan under which you pay for the actual work performed. Additional information concerning service charges is available through our Business Office.

TELEPHONE OPTIONS

Telephone equipment may be obtained from independent suppliers listed in the Yellow Pages. Such equipment must be approved or registered by the FCC and the customer is responsible for its proper connection, maintenance, and repair. These rules are designed to assure reliable service and at the same time protect customers and employees against possible hazards.

INSIDE WIRING OPTIONS

- If your residence or business requires wiring, GTE can provide quality inside wire service. From installation to maintenance, GTE is the single source for all your communication needs. During construction or remodeling, GTE can prewire dwellings to eliminate exposed wiring.
- Independent contractors and residence customers can also wire dwellings for telephone service. GTE will provide the necessary telephone interface to the building.

Page 2

REPAIR

SELF CHECK

If you have a problem with your telephone service, it can be one of three things. To help determine the source of the problem, here are some tips that may save time and help you avoid a possible service charge:

Outside Line Problem

- No dial tone on all phones
- Can't call in or out on all phones
- Get cut off when talking on all phones
- Noise or static on all phones

Inside Wire Problem

- A phone works in one jack but not in another
- Loose or broken phone jack

Telephone Problem

- Stuck push buttons
- Worn cords
- Broken cord clips
- Stuck receiver buttons

SERVICE

When you have a service problem, we'll do our best to locate and clear up the trouble. Depending on the source of the problem, the following guidelines will apply:

- **Outside Line:** GTE maintains your lines as a part of your basic monthly rate.
- **Inside Wire:** Unless you request our Lineskeeper Plan (see **GTE CATALOG**) you are responsible for repair and maintenance. You may hire a vendor or handle the repair yourself.
- **Telephone:** If you rent from GTE, repair is included in your monthly fee at no extra charge. If you own your telephones, you are responsible for repair and should follow the warranty instructions.

TELEPHONE SAFETY

- Do NOT use the telephone near water. Water contact could cause electrical shock.
- Do NOT use the telepone during an electrical storm in your immediate area. Calls of an urgent nature should be brief. Although GTE ues protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

  GTE provides primary overvoltage protection at the customer's premise. Secondary overvoltage protection to prevent damage to terminal equipment (modems, answering devices, etc.) connected to the telephone network interface is the customer's responsibility. GTE assumes no liability for electrically damaged terminal equipment (modems, answering devices, etc.) due to power or lightning surges unless such equipment is covered by a GTE warranty and/or a maintenance agreement.
- Do NOT use the telephone to report a gas leak. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset. While unlikely, this spark could trigger an explosion.
- Do NOT leave a telephone off the hook. This prevents emergency calls from getting through and ties up equipment needed to complete other customers calls.

It's in the bag.

BILL CONTENTS

After ordering telephone service, we will send you a bill covering:

- Installation costs
- Local service charges (prorated)
- Long distance calls (if any)
- Advanced billing of next month's local service

Subsequent bills will include charges for:

- Local service charges (one month in advance)
- Long distance calls (if any)
- Miscellaneous charges
- Any unpaid amount

BILLING QUESTIONS

If you have questions concerning your bill, refer to WHERE TO REACH GTE.

PAYMENT LOCATIONS

(see **WHERE TO REACH GTE**)

We can process your payment faster when you pay your monthly bill by mail. Just detach the stub portion of your bill and note your area code and telephone number on your check. Please use the return envelope enclosed with your bill. Do not send cash.

BILL EXPLANATION

Shown above is an example of the Billing Summary Page of your telephone bill. This page summarizes payments, adjustments, and new charges for easy review and cross checking. Subsequent pages of the bill provide a detailed breakdown of the charges/credits including information concerning each long distance call.

An explanation of the codes used in describing the type of long distance calls appears on the back of your bill. Each long distance company has a separate page or group of pages. This is done at the request of the long distance companies.

GTE CATALOG - RESIDENTIAL

GTE is the single source for all your telephone needs. We have highlighted our most significant optional services in this catalog. For more information on any of these services, contact our Business Office.

TOUCH CALLING

Touch Call dialing offers a fast and accurate way to make phone calls. Touch Call provides access to advanced services such as banking by phone and makes Smart Call Services easier to access and use.

SMART CALL SERVICES

The SMART way to use your phone. Put an end to missed calls, telephone tag, waiting by the phone, and busy signals with Smart Call Services - the latest calling features from GTE. These services make it easy to keep in touch with family, friends and business associates. Smart Call Services are available on either a rotary dial or Touch Call line and work with the phone you now have.

• **Call Waiting**	Never miss a call because your line is busy.
• **Cancel Call Waiting**	Don't be disturbed during important calls.
• **Call Forwarding**	Need to leave? Take your phone calls with you.
• **Speed Calling**	Reach numbers with speed and accuracy -- your phone remembers up to 30 of them.
• **Three-Way Calling**	Add a third person to your conversation.
• **Smart Ring**	Help your present phone line do the work of two. Smart Ring gives you two phone numbers for your one phone line -- and each number has its own special ring. The different sounds of the two rings tell you who the call is for before you answer it. Each phone number may be listed in your local directory at no additional cost.

SMART CALL PACKAGE

To increase value to you at affordable monthly rates, the Smart Call features are combined into a convenient package.

- **Smarter Call Pak:** Includes Call Waiting, Call Forwarding, Speed Calling and Three-Way Calling.

Quick User Guide

Service	Activate	Cancel
Call Waiting	Hookswitch (Hang up button)	*70
Call Forwarding	72#	73#
Speed Calling 8	74# (to store)	
Speed Calling 30	75# (to store)	
Three Way Calling	Hookswitch (Hang up button)	

From a rotary dial telephone follow the same instructions but ignore all reference to the # button and allow 4 seconds before continuing. For detailed instructions on how to use each of these services refer to the following pages.

IMPORTANT: Above services are not available in all areas. Please contact the Business Office for availability in your area.

Be a communications wiz.

Call Waiting
BEEP BEEP
GTE

Page Contents -

- **Call Waiting**
- **Cancel Call Waiting**
- **Call Forwarding**

Call Waiting

Expecting a special call doesn't mean staying off the phone. With Call Waiting, your calls come through even when you're on the line. The Call Waiting "beep" tells you when someone is trying to reach you. Then you just put your present call on hold while you answer the second call. Great for busy couples, roommates, and especially families with teenagers.

Instructions:

1) If you are talking on the phone and you receive another call, you'll hear a "beep" tone. The person calling will hear normal ringing until you answer.
2) Tell your first caller you have another call. When that person hangs up, you will be connected with the second caller within two seconds.
3) If you want to put the first caller on hold to answer the second call, press the hookswitch (the button that hangs up the phone) for one second. This will put your first call on hold and connect you to your second call.
4) To return to the first call, press the hookswitch for one second. This will return you to your original call and put the second call on hold. You can repeat this process as often as necessary.
5) When one party ends the conversation and hangs up their telephone, the second party will automatically be reconnected with you. Do not depress the hookswitch.

Note To Computer Users: If using a modem, the call waiting tone will interrupt on-line usage causing lost data. You may want to consider a second phone line.

Cancel Call Waiting

Turn on Cancel Call Waiting when you're making an important call and talk as long as you want with no interruptions. After you finish your call, Call Waiting returns automatically when you hang up the phone. Cancel Call Waiting assures you of uninterrupted phone calls during important conversations, when talking long distance or when using your personal computer modem.

Instructions:

Before placing a call...
1) Listen for a dial tone.
2) Dial 7 0 #. On a rotary line dial 1170.
3) Listen for three short tones, followed by a normal dial tone.
4) Dial the telephone number.

During a call... (if you subscribe to Three-Way Calling)
1) Press the hookswitch (the button that hangs up the phone) for one second.
2) Dial 7 0 #. On a rotary line dial 1170.
3) A tone will be heard and you will be automatically reconnected to your call.

Note To Rotary Dial Customers: Dial 1170 instead of 7 0 #.

Call Forwarding

Call Forwarding lets you leave home without worrying about missing a call, just forward your calls to wherever you go. Whenever you have to be away from your phone, Call Forwarding is the Smart way to keep your calls moving with you.

Instructions:

1) Listen for a dial tone.
2) Dial 7 2 #.
3) When you hear a second dial tone, dial the number where you want to forward your calls. Dial # again.
4) When the number you called is answered, your Call Forwarding service is working.
5) If you receive a busy signal or no answer, hang up and repeat steps 1 through 3.
6) Two short tones tell you Call Forwarding is working. No answer is required to activate Call Forwarding on the second attempt.

To cancel...
1) Listen for a dial tone.
2) Dial 7 3 #.
3) Two short tones tell you Call Forwarding has been cancelled.

IMPORTANT: Above services are not available in all areas. Please contact the Business Office for availability in your area.

**For Help
Go To GTEKEY
Page 2**

Speed Calling

Speed Calling saves you time and effort. There is no need to search for important numbers since your phone remembers up to eight or thirty of them. Dial with an easy two button code.

Instructions:

To save a number using Speed Calling 8...

1) Listen for a dial tone.
2) Dial 7 4 #.
3) Listen for a second dial tone.
4) Dial a one digit code for each number (2 through 9), followed by the telephone number the code represents.
5) Two short tones indicate the number has been stored.

Important Note: In communities where "9-1-1" Emergency Service is available, the "9-1-1" number cannot be set up for Speed Calling.

To save a number using Speed Calling 30...

1) Listen for a dial tone.
2) Dial 7 5 #.
3) Listen for a second dial tone.
4) Dial a two digit code for each number (20 through 49), followed by the telephone number the code represents.
5) Two short tones indicate the number has been stored.

Important Note: In communities where "9-1-1" Emergency Service is available, the "9-1-1" number cannot be set up for Speed Calling.

To place a call...

1) Listen for a dial tone.
2) Dial one of the Speed Calling codes followed by the # button.
3) Your call will go through after a short pause.

Three-Way Calling

Three-Way Calling eliminates "back and forth" calling by letting you talk to two people at the same time. Three-Way Calling lets you hold a three way conversation with friends, relatives, or business associates. You can decide who, where, and when all in one smart call.

Instructions:

1) Call the first party as you normally would.
2) While connected to the first party, press the hookswitch (the button that hangs up the phone) for one second. This puts your party on hold.
3) Listen for three tones and dial tone.
4) Dial the number of the third party. When the call is answered, you may talk privately before bringing your first party back on the line. Press the hookswitch for one second to establish a Three-Way Call.
5) If you receive no answer or a busy signal, press and release the hookswitch twice to return to your first party.

To disconnect...

1) Hang up and both parties will disconnect.
2) If either party hangs up, your call with the remaining party will continue.
3) Disconnect the second party yourself by pressing the hookswitch.

IMPORTANT: Above services are not available in all areas. Please contact the Business Office for availability in your area.

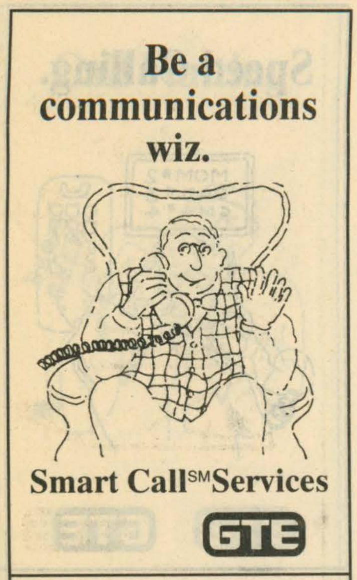
GTE CATALOG - RESIDENTIAL



Page Contents -

- **SMARTER CALL PHONE**
- **LINESKEEPER SERVICE**
- **CALLING CARDS**
- **TOLL BLOCKING**

SMARTER CALL PHONE

Smart Call Services are even easier and faster to use with GTE's Smarter Call telephone. On the face of the Smarter Call Phone are the buttons that activate the features in the Smarter Call Pak. With the Smarter Call phone, you do not have to waste time memorizing special codes or hunting through instruction booklets. The phone does it for you. With just a touch of a button, you have direct button access to each of your Smart Call Services.

Note: The Smarter Call phone and the Smarter Call Pak are sold separately. Smart Call Services are available only in certain locations. For more information, contact your GTE Business Office.

LINESKEEPER SERVICE

All telephone wiring and jacks inside a customer's home or office have been deregulated, meaning that single line customers are responsible for repair costs should something go wrong. As a customer convenience, GTE offers Lineskeeper Service which provides unlimited repair service for a low monthly fee.

CALLING CARDS

Call anywhere from any telephone. A GTE Calling Card enables you to place calls and have the charges appear on your monthly bill. GTE Calling Card calls also cost less than other operator assisted calls. Best of all, there is no charge for the card. To get a GTE Calling Card, refer to WHERE TO REACH GTE - (GTE Business Office).

TOLL BLOCKING

Blocking of calls made to 900-XXX-XXXX or 976-XXXX numbers is available in your area. To inquire about preventing 900/976 calls being placed from your phone, please contact the Business Office (refer to WHERE TO REACH GTE).

Initial requests for this service are free of charge. Charges may be incurred for any additional requests.

IMPORTANT: Above services may not be available in all areas. Please contact the Business Office for availability in your area.

GTE CATALOG - BUSINESS

TELECOMMUNICATIONS CONSULTANTS

GTE is the full service provider for all your telecommunications needs. GTE consultants develop communication solutions to business problems through the effective application of advanced network services. From foreign exchange lines which give you a local presence in distant markets to dedicated fiber optic links for extremely high speed computer communications, we can meet your present and future needs.

DATA TRANSMISSION

GTE provides an array of proven voice and data transmission services. Maintenance and investment in the best equipment makes GTE the prime choice for your data transmission needs.

CONFERENCE CALLING

When you need to talk to people in different places at the same time, make a conference call. Consult the Yellow Pages for a service provider.

800 SERVICE

To make it easy and attractive for out of town customers to call, you should obtain an 800 number. Our 800 Service is a cost effective solution to expand your trading area by allowing customers outside of your local calling area to call your business free of charge. Our 800 Service is particularly effective for companies that want to increase their phone order business.

MAINTENANCE

A maintenance contract from GTE helps to insure that your phone service will be uninterrupted and that your business will be protected from costly repairs. In the event you need service, we will send a professionally trained technician to repair or replace your equipment within 24 hours (7 days a week).

Please contact your GTE service representative for service availability in your area.

PUBLIC TELEPHONES

Want a steady source of revenue? With GTE Public Telephones, you can provide your customers with a proven communications link when away from home or the office.

IMPORTANT: Above services may not be available in all areas. Please contact the Business Office for availability in your area.

The big small business package.

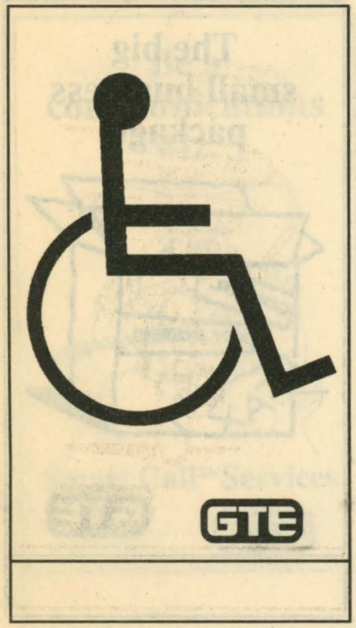
SPECIAL NEEDS SERVICES



Page Contents -

- **SERVICES FOR CUSTOMERS WITH DISABILITIES**
- **COMMUNICATION ASSISTANCE**
- **ARKANSAS RELAY SERVICE (TRS)**

SERVICES FOR CUSTOMERS WITH DISABILITIES

If you are disabled or know someone who has a physical problem in using the telephone, we want to help. The solution may be provided by special equipment we already have available. If not, we will do our best to help design an effective solution. Call our Business Office. There is no charge for the consultation to help solve your specific problem.

If you have a physical disability or care for a GTE customer with a physical disability, you are encouraged to identify yourself to us so that special consideration can be given where necessary and appropriate to your circumstance.

COMMUNICATION ASSISTANCE

For Text Telephone (TT) users requiring communication assistance for directory assistance, third number billing, person-to-person, collect calls, busy line verification and line interruption:

TT or Voice .... 1 + 800 855-1155

ARKANSAS RELAY SERVICE (TRS)

Persons with hearing or speech disabilities normally experience difficulties in using the public telephone system. ARS makes it possible for such persons to use the telephone. Specially trained personnel, known as Communication Assistants (CAs) act as a go-between and "relay" calls between persons with hearing or speech disabilities and the parties they call. There is no charge for ARS, which is available 24 hours a day, 7 days a week. Charges for long distance calls are made as if the person using ARS was calling directly.

Numbers to use for ARS are:

Text Telephone (TT) users	1 + 800 285-1131
Voice users	1 + 800 285-1121
Customer Services	1 + 800 285-7192

**Do not call ARS for emergency help unless you cannot reach 9-1-1 or 9-1-1 is not available in your area.

Beginning July 26, 1993, GTE customers using telecommunications relay services will be able to use the carrier of their choice for long-distance calls. Simply tell the communications assistant handling the call the name of your preferred long distance carrier or dial the TRS access number provided by your long distance carrier.

The Americans with Disabilities Act of 1990 requires all states to provide access to nationwide telecommunications relay services.

CALLING INSTRUCTIONS

TYPES OF CALLS

- **Dial Direct - Lowest Rates**

  You can save money by dialing all your calls direct without involving the operator.

- **Calling Card - Higher Rates**

  Customers who have telephone calling cards may charge calls to their card number. Customer dialed Calling Card calls cost more than dial direct rates because some operator assistance charges apply. These charges are in addition to the dial direct rates. (For more information see **GTE CATALOG**)

- **Operator Assistance - Highest Rates**

  Operator Assistance is required to make the following types of calls. Charges in addition to the dial direct rates will apply.

  Station to station: Call station to station, if you wish to talk with anyone who answers. Charging begins when the call is answered.

  Person to person: Call person to person when you wish to talk to a particular person or extension. Tell the operator you wish to make a "person to person" call. Rates are higher than station to station. Charging starts when talking begins.

  Collect: You can call collect if the person you are calling agrees to pay the charge. If you want to make a collect call, be sure to tell the operator when you place the call. The operator will leave the line when the person you've called accepts the charges.

  Third Number Billing: Customers may charge calls to a third telephone number. This service requires operator assistance. If you are calling from a pay phone, someone must answer the third number and approve the call before the operator will complete the call.

  Time and Charges: When placing calls, you may request the time and charge of the call from the operator.

Note: Refer to the following pages for instructions on how to place these types of calls.

Russellville (890, 964, 967, 968)	284, 293, 331, 641, 890, 964, 967, 968
Salus (292)	292, 497, 754, 885, 979

PARTY LINE CALLING

To Call Another Party On Your Line

Use a special code number previously assigned—

1. Lift the receiver and listen for the Dial Tone indicating the line is clear.
2. Dial the SPECIAL CODE NUMBER, for the party you are calling.
   Hartman-Coal Hill ......Dial number & wait for recording, then hang up
   Salus..........................Dial number & wait for recording, then hang up
3. Hang up your receiver. Your telephone and the called telephone will start to ring.
4. Allow sufficient time for the called party to answer. Your telephone will stop ringing when the called party answers. Remove your receiver and begin the conversation.
5. If the called party does not answer within a reasonable length of time, remove your receiver and replace it after a few moments. This will break the connection.

If the number you are calling is always busy, it could be that the party you are calling is on your line. Call Repair Service for directions on how to place these calls.

CALLING INSTRUCTIONS

SHORT/LONG DISTANCE CALLING

In addition to area codes, the country is divided into areas called LATAs (Local Access Transport Areas). These boundaries determine which companies handle your short and long distance toll calling.

- **Short Distance:** GTE provides complete calling services to points within your LATA.
- **Long Distance:** Calling to points outside your LATA are provided by long distance companies. You may use any of the long distance companies serving your area by first dialing their five-digit access code (10XXX). Otherwise, your long distance calls will be handled by the long distance company you chose when you ordered your telephone service. For the names of long distance companies serving your area consult the Yellow Pages.

WITHIN YOUR LATA

Arkansas has been divided into long distance calling areas called LOCAL ACCESS TRANSPORT AREAS (LATAs). These boundaries determine which company handles your Long Distance Calling. In Equal Access locations, 1 + /0 + Long Distance Calling outside your LATA is handled by your Preferred Long Distance Telephone Company. Those 1 + /0 + calls made within your LATA are handled by your local Telephone Company.

INSTRUCTIONS

	Within Area Code*	Outside Area Code
Direct Dial:	1 + number	1 + area code + number
Operator Assistance:	0 + number	0 + area code + number
Calling Card:	0 + number (wait for tone) + calling card number	0 + area code + number (wait for tone) + calling card number

* Beginning July 1, 1994 customers may dial 1 + area code + number when making long distance or directory assistance calls. 1 or 0 + 10-digit dialing will become mandatory by January 3, 1995.

INSTRUCTIONS FOR OPERATOR-ASSISTED CALLS

For Calling Card calls, you will hear a special tone indicating you should key in your Calling Card number. If you need operator assistance, or you are making the call from a rotary telephone, wait for the operator to come on the line to assist you. When the operator answers, give the required information:

Say "person-to-person" and give the name of the person you are calling or

Say "collect" and give your name, or

Say "bill to" and give the area code and number you're billing the call to.

RATES

For direct dial calls, the initial rate period is one minute any time of day or night. Charges are based on rates in effect at the time of the call. Charges for additional minutes change when the call continues into a new time period. Additional savings apply during evenings, nights and weekends.

EQUAL ACCESS INFORMATION

Equal Access is the provision of local network connections that are equal in type and quality to all long distance companies on a non-discriminatory basis. Its implementation is required by the Federal Communications Commission. If your phone is not yet converted to Equal Access, you may need to dial multiple digits to place long distance calls handled by companies other than AT&T Communications. You also have to use a telephone that has touch calling capabilities.

With Equal Access, you will be able to select a long distance company to handle your long distance calls, which you will automatically access when dialing "1 + ". For more information about Equal Access, refer to WHERE TO REACH GTE - (GTE Business Office).

Page 2

CALLING INSTRUCTIONS

Page Contents -

- **EQUAL ACCESS CALLING CARD CALLS**

EQUAL ACCESS CALLING CARD CALLS

For Your Information

With Equal Access, you can still make long distance calls with your GTE Calling Card. However, as more and more telephone switching centers in the United States are converted for Equal Access, there may be instances when by dialing 0 + the area code + the telephone number, your GTE Calling Card may not be accepted.

To make a GTE Calling Card call in an Equal Access Area, simply dial 0 + the area code + the telephone number and complete your Calling Card call as you normally would. If the call is made to a number outside your LATA, it will be processed by the chosen carrier. Calls made within your GTE Calling Card will be billed on the GTE portion of your bill.

From a rotary dial phone, dial 0 + the area code + the telephone number. When the operator answers, give your GTE Calling Card number.

From a touch tone phone, press 0 + the area code + the telephone number. Wait for the special tone and immediately enter your GTE Calling Card number.

SMALL TOWN TX 00000

GTE
CallingCard

Calling Card Number 000 000 0000 0000

If you are having trouble using your GTE Calling Card:

Please contact your long distance company to determine whether or not they provide this service. Your long distance company should provide you with specific dialing instructions. If your long distance company does not provide this service, dial "0" and tell the operator you are using your GTE Calling Card. The operator will ask for your calling card number and will place the call for you.

AREA CODES SPEED YOUR LONG DISTANCE CALLS

The U.S. and Canada are divided into more than 135 telephone areas. Each area has a 3 figure area code. See map for your area code. The area code of the telephone you are calling should be dialed, or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same*. (When placing call with operator, say, for example, "I want Area Code 312 555-2364.")—When you give someone your telephone number, include your area code if they need to return your call.—A list of selected area codes is on page 26.

* Beginning July 1, 1994 customers may dial 1 + area code + number when making long distance or directory assistance calls. 1 or 0 + 10-digit dialing will become mandatory by January 3, 1995.

CALLING INSTRUCTIONS

INTERNATIONAL CALLING

The standard International Access Code (011) is used by all long distance companies. You may use any of the long distance companies serving your area by first dialing their five-digit access code (10XXX). Otherwise your long distance calls will be handled by the long distance company you chose when you ordered your telephone service.

Direct Dial:	011 + country code + city code + number
Operator Assistance:	01 + country code + city code + number

After dialing international calls, allow at least 45 seconds for the ringing to start.

GTE Calling Cards cannot be used for calls between foreign countries.

Frequently Called International Dialing Codes

Call your long distance provider for additional Country Codes

American Samoa 684

DIRECTORY ASSISTANCE

Directory Assistance operators can provide you with a phone number when you don't have it. In addition, you may request two numbers at the same time. See WHERE TO REACH GTE.

DIRECTORY ASSISTANCE CHARGES

You are allowed to make one (1) local directory assistance call within your local calling area during each monthly billing at no cost. Calls in excess of one (1) per month are billed at $0.40* cents each. Charges do not apply on local directory assistance calls from GTE pay phones, hospitals, or from handicapped customers who are unable to use the phone book because of a permanent handicap.

*The charge listed above is regulated by the Arkansas Public Service Commission and was correct on the date this directory was compiled. This charge is subject to change by order of the Arkansas Public Service Commission. Current charges are always available from your GTE Business Office.

DIRECTORY CONTENT

From providing a comprehensive listing of local businesses to describing the community at large, your directory serves as much more than a source of local telephone numbers. We make every effort to assure listings are accurate, but GTE assumes no liability for charges arising from errors or omissions. If you are aware of an error or problem, please contact the Business Office (refer to WHERE TO REACH GTE).

EXTRA DIRECTORIES

If you need additional copies of this book or if you need books from other communities, please call 1 + 800 888-8448.

YELLOW PAGE ADVERTISING AND LISTINGS

Every business receives a free Yellow Page listing, under the category of their choice. See the Samples of Advertising Section at the end of the Yellow Pages to see what types of advertising are available. Let your customers know who, where, what, and when; Yellow Page advertising does it all. (See WHERE TO REACH GTE).

WHITE PAGE LISTINGS

Every customer may be listed once in the White Pages of the directory without charge. The following enhancements are provided as options to this basic service.

- **Additional Listings:** Even if your telephone service is in someone else's name you can request an additional directory listing in your name. Additional listings can also give someone who is already listed extra exposure. There is an additional charge according to the type of listing required.
- **Non-Listed Service:** We can omit your listing from the White Pages but retain it in our Directory Assistance records. This service is available for a small monthly charge.
- **Non-Published Service:** For even more privacy, we can omit your listing from both the White Pages and Directory Assistance records. This service is available for a small monthly charge.

YOUR RIGHTS AS A CUSTOMER

COMPLAINT PROCEDURE

- If you have a complaint, our qualified Service Representatives are available to assist you in a friendly, professional manner.

BUSINESS OFFICE	
Residential Customers	1 + 800 572-8011
Business Customers	1 + 800 483-5400
BILLING	
Residential/Business	1 + 800 483-3400
REPAIR	
Residential/Single-Line Business Customers	1 + 800 483-1000
Multi-Line Business Customers with GTE-Maintained Equipment	1 + 800 527-2558

- IF, however, the matter does not get resolved to your satisfaction, ask to speak to a Supervisor.

- THEN, if you are still not satisfied with the action taken, call the District Manager ....(No charge to callers in GTE exchanges) 1 + 501 968-0180

- OR, you have the right to pursue any matter through the state regulatory body. You may file a complaint with the Arkansas Public Service Commission which regulates GTE. You may write or call:

  Arkansas Public Service Commission .... 1 +800 482-1164
  P.O. Box C-400
  Little Rock, AR 72203

RIGHTS AND RESPONSIBILITIES

EQUIPMENT BYLAWS

- **Telephone Options** (refer to **INSTALLATION**)
- **Inside Wiring Options** (refer to **INSTALLATION**)

SERVICE BYLAWS

- **Equal Opportunity Provider:** GTE provides telephone service without regards to race, nationality, color, religion, sex, or marital status.
- **Regulations:** As a telephone company, GTE is regulated by the Arkansas Public Service Commission. A complete copy of rules and regulations is available at the State Office and the GTE Business Office.
- **Rates:** Rates and practices included in this directory are based on standards in effect at the time the directory was published and are subject to change. Customers will be advised of any request for a general rate increase within 45 days of such request and before the date of the first public hearing. A schedule of rates is available at the Public Service Commission's State Office and the GTE Business Office.
- **Interruption of Service:** The specific form of rule applicable to interruptions in exchange telephone service is as follows:
  The utility shall allow, for interruptions in exchange telephone service of 24 hours or more not due to conduct of the customer, an amount equal to the fixed monthly charges for exchange service multiplied by the ratio of the days of interruption to thirty days. When interruptions continue beyond 24 hours, credit allowance will be given in successive 24-hour multiples.
  Similar but not identical provisions apply to private line and other telephone services. For details of provisions covering allowances for interruption in such other services you should call your GTE Business Office.
- **Ownership of Telephone Numbers:** All telephone numbers are owned by the Telephone Company. The Telephone Company has the right to change any customer's number as may be required.
- **Employee Identification:** For your protection, every employee who visits a customer's home carries an official employee identification card. It includes their name and photograph. If you have doubt about a person who claims to be representing GTE, ask to see the person's identification card.

USAGE BYLAWS

- **Harassment:** Making threatening, obscene, or nuisance calls is a violation of state law. If you receive a threatening call report it immediately to the Police. If you receive obscene or nuisance calls, follow these suggestions:
  - Hang up
  - Give no information
  - Advise children to do the same

  If calls continue, contact the Police and our Business Office for advice. Often, changing your number will resolve the problem.
- **Party Line Use:** Applications for party line use are accepted by GTE with the understanding that each customer will not interfere with the other's fair and equal use. If problems occur GTE reserves the right to limit local calls to five minutes. Furthermore, you are required by law to give up use of a party line in an emergency.
- **Emergency Interrupt:** If a telephone number is constantly busy, you can ask the operator to check the line. If the busy signal is due to a conversation on the line or a receiver off the hook, you will be charged an operator verification charge. In the case of an emergency, you can ask the operator to interrupt the conversation.

Page 2

RIGHTS AND RESPONSIBILITIES

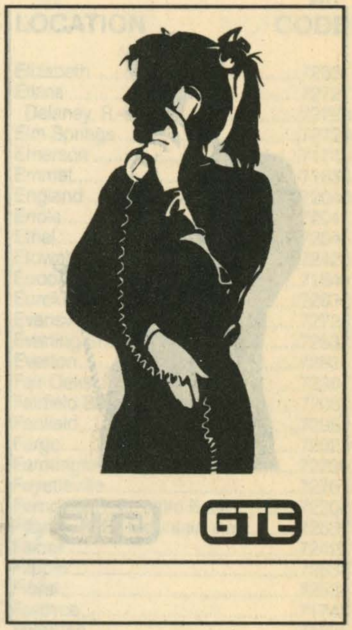
- **911/Privacy:** Emergency calls made in an Enhanced 911 area are displayed at the answering point. This enables emergency teams to locate a caller even if the call has been interrupted. In addition, all standard 911 calls are subject to being traced for the same reason. The caller's consent is implied by dialing the 911 emergency number. Callers who want to keep their number private should use the seven-digit emergency number located in the White Pages.
- **Tape Recording:** The recording of two-way telephone conversations is governed by state and federal laws and regulations. You should consult an attorney if you have questions regarding these laws and regulations.
- **Fraud:** For your protection, GTE is able to detect fraudulent calls. State and Federal laws provide that no person shall defraud or attempt to defraud the Telephone Company (GTE) of its lawful charges.
- **Use of Residential Phone for Business Purposes:** Residential phones are installed with the understanding that they will be used for normal domestic purposes. A residential telephone will be changed to business service if used primarily for business purposes or if it is advertised for business purposes.
- **Downgrades:** If you are a business customer who wishes to change from business telephone service to residential telephone service, you will be required to change your telephone number.
- **Automatic Dialing-Announcing Devices:** No automatic dialing announcing device (ADAD) can be connected to GTE's network until certain requirements are met. Contact your Business Office for requirements.

DAMAGE TO COIN TELEPHONES

Any person who intentionally or knowingly damages or destroys any coin telephone is guilty of criminal mischief and may be punished by imprisonment for any term not more than ten years or less than two years and/or fined up to $10,000.

RESPONSIBILITY FOR PAYMENT OF LONG DISTANCE SERVICE

You are responsible for all long distance calls placed from a telephone for which you have billing responsibility. You are also responsible for all authorized charges made to your telephone calling card.



Page Contents -

- **DAMAGE TO COIN TELEPHONES**
- **RESPONSIBILITY FOR PAYMENT OF LONG DISTANCE SERVICE**

For Help
Go To GTEKEY
Page 2

RIGHTS AND RESPONSIBILITIES

GROUNDS FOR DISCONNECTION

- Nonpayment of local and long distance service charges. Service will not be disconnected until you have been given written warning and payment has still not been received. Suspension of service may be delayed when a "Certified Medical Emergency" exists or when a "Delayed Payment Agreement" has been entered into with the Telephone Company. If requested, a copy of all termination notices can be mailed to a third party. These options are available through your Customer Billing Center.
- Failure to comply with the terms of a deferred payment agreement.
- Failure to comply with deposit or credit arrangements.
- Failure to remove unauthorized attachments from GTE lines after receiving written notice.
- Abuse or misuse of telephone service when calls are made in a manner which is profane, obscene, or frightening, after receiving written notice.
- Abandonment of telephone service without notice to GTE.
- Tampering or bypassing GTE's equipment.

DISPUTED BILLS

In the event you dispute a portion of your bill, your service will not be discontinued for nonpayment of that portion of the bill under dispute pending the completion of the determination of the dispute, but in no event to exceed 60 days. All amounts of your bill not in dispute must be paid on a timely basis to avoid service disconnection.

SERVICE CREDIT

You may not be required to pay a deposit for telephone service if you meet certain criteria. Please contact the Business Office or Customer Service Center for additional information.

CUSTOMER PROVIDED EQUIPMENT

Customer provided equipment may not be connected to telephone company facilities unless it is registered or otherwise approved through the FCC and meets the conditions set forth in the company's tariffs. If you have any questions concerning the use of customer provided equipment, please contact the Business Office or Customer Service Center.

TARIFFS

Communication services furnished by GTE are public utility services which are offered subject to the rules, regulations, and charges set forth in our tariffs, which tariffs shall at all times control the provision of such communication services. GTE's tariffs are subject to change and are available for inspection at our Business Offices during office hours.

RENTAL PHONES-RETURN PROCEDURE

If you make arrangements to return a rental phone, it is your responsibility to return it within 5 days or you will be billed the replacement cost of the equipment. If this occurs, your telephone bill with the non-return charge will be your purchase receipt.

EMERGENCY PROCEDURES

What To Do Now

☐ **READ** this Guide carefully.

☐ **DECIDE NOW** where you plan to go if you are ordered to evacuate. You may (1) leave the region. (2) go to the home of a friend or relative in a safe area. (3) go to a hotel or motel in a safe area or (4) as a last resort, go to a Red Cross public shelter.

☐ **CHECK** your emergency supplies.

☐ **IF YOU WOULD NEED ASSISTANCE** during an evacuation and there is no one else to help you, REGISTER NOW with your local Disaster Preparedness office.

If a Hurricane Approaches

☐ **Listen for weather updates:** Hurricanes are unpredictable—so keep informed.

☐ **Have your car ready:** Check gas, oil and water.

☐ **Put together your hurricane survival kit.**

☐ **Refill prescriptions:** Obtain at least a two-week supply.

☐ **Plan for pets:** Pets are not allowed in shelters. If you need to make arrangements for your pet, contact your vet, local SPCA, or Humane Society.

☐ **Clear your yard of loose objects:** bicycles, lawn furniture, trash cans, etc.

☐ **Tape glass & board windows:** Reduce the risk of broken windows and flying glass.

☐ **Leave swimming pool filled:** Super-chlorinate and cover pump/filter system.

If You Evacuate

☐ **Pack what you will need.**

☐ **Turn off electricity and water.**

☐ **Shut off gas at the main valve** if you have a valve on your gas tank. Shut off gas at the appliances if your gas is not provided from a storage tank.

☐ **Take important papers with you:** including identification with your local address.

☐ **Let friends and relatives know where you are going.**

Tornado Safety Rules

If you see or hear a tornado, take the following safety measures: Seek inside shelter immediately. Protect your head and eyes, lie flat, and make as small a target as possible. If you have a portable radio, take it with you.

☐ **In homes:** Get away from windows, doors, and outside walls. Go to the basement. If you have no basement, go to the first floor bathroom, closet, or room at the center of the house. If possible get under heavy furniture or cover your head with blankets or pillows.

☐ **In schools:** Get to the lowest floor or basement. Go to interior small rooms or hallways. Stay away from windows and large areas such as auditoriums and gymnasiums.

☐ **In public buildings:** Go immediately to a designated shelter area, or to an interior hallway or small room on the lowest floor, stay away from windows. Do not go to your parked car!

☐ **Mobile homes:** Should be abandoned immediately. If there is no reinforced building or underground shelter nearby, take cover in a ditch or depression.

EMERGENCY INFORMATION

How Will I know About An Emergency?

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Energy Operations, Inc. must notify State Officials. Through use of the Emergency Warning System, State officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes. If you have an EBS tone alert radio, it will be activated. STAY CALM. When you hear the sirens, listen to one of these local radio stations for information:

KARV	610	AM	Russellville
KCJC	100.9	FM	Russellville
KMTC	91.1	FM	Russellville
KXRJ	91.9	FM	Russellville
KCAB	980	AM	Dardanelle
KWXT	1490	AM	Dardanelle
KWKK	102.3	FM	Dardanelle
KLYR	1360	AM	Clarksville
KLYR	92.7	FM	Clarksville

What About Evacuation?

Look at the map on the next page and find out which care center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the yellow "NOTIFIED" tag from the back of your Emergency Instructions Booklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a care center. You may need to stay at the center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

Where Are Care Centers?

Morrilton	Morrilton H.S. Morrilton Intermediate North Side Elementary Reynolds Elementary Petit Jean Vo-Tech Southern Christian Home
St. Vincent	Wonderview H.S.
Center Ridge	Nemo Vista H.S.
Hector	Hector H.S.
Clarksville	Clarksville H.S.
Paris	Paris H.S.
Danville	Danville H.S.

What Shall I Take?

-change of clothing
-towels and washcloths
-personal identification
-soap and shaving equipment
-flashlight and batteries
-blankets and pillows
-sanitary supplies
-medications
-baby supplies
-portable radio

What About Sheltering?

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows, air vents and put air conditioner on the maximum setting, if needed. Listen to your local radio station for further instructions.

What About The Schools?

Schools will be notified before the general public and students will be taken to a care center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the care center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radiation contamination.

Need Special Help?

-hard of hearing
-can't hear a siren
-need a ride to a care center
-need special notification
-handicapped some way

If one of these applies to you, fill out a "SPECIAL NEEDS FORM." If you don't have one, contact:

Arkansas Department of Health
Nuclear Planning and Response
P.O. Box 1749
Russellville, AR 72811
Phone: 968-7171 or 1-(800)-422-6630 (toll free)
Office Hours: 8:00 a.m.-4:30 p.m.
Monday-Friday

The deaf and hearing impaired who use TDD equipment may reach us by calling 964-7890 or 1-800-633-6413. To report Siren Warning System Problems, E.B.S. radio problems, or any urgent concern, you may call these numbers 24 hours a day.

Severe Weather Protection...

The siren system around Arkansas Nuclear One can be used to alert the public of severe weather. This can be done by local officials if they feel it is necessary.

What About My Livestock?

A free pamphlet is available from Nuclear Planning and Response.

A color coded map has been mailed to everyone living within the ten miles of Arkansas Nuclear One. If you did not receive one, contact the Nuclear Planning and Response Office or your local county judge's office.

"We're Not Comfortable Until You Are!"

AIR DUCT CLEANING SERVICE

Major Reasons to Clean your Air Ducts

SAFETY
Bacteria, viruses, fungi, dust mites and decaying organic matter are sent airborne throughout your home from their hiding places in your air ducts.

EFFICIENCY
Accumulated debris can restrict the air flow in your air ducts, making your system work harder to heat and cool your home.

CLEANLINESS
When we power vacuum the average Air Duct System it is not unusual for us to remove 14 to 17 pounds of dust, dirt and debris. This is what is circulating throughout your home every time your system turns on.

HEALTH
Air duct systems are home to many substances that can aggravate allergies. Mold and mildew find easy living in the dark, moist interior of your Air Duct System.

Is the GTE YELLOW PAGES part of your media mix? Television, radio, newspapers and other media do a great job of reaching customers. However, the GTE YELLOW PAGES plays a unique role among all the places where you can advertise. The GTE YELLOW PAGES are there 24 hours a day. All year long when people are ready to buy products and services.

SAFETY TIP

Teach your child to stay with you while shopping & to stay out of parking lots.

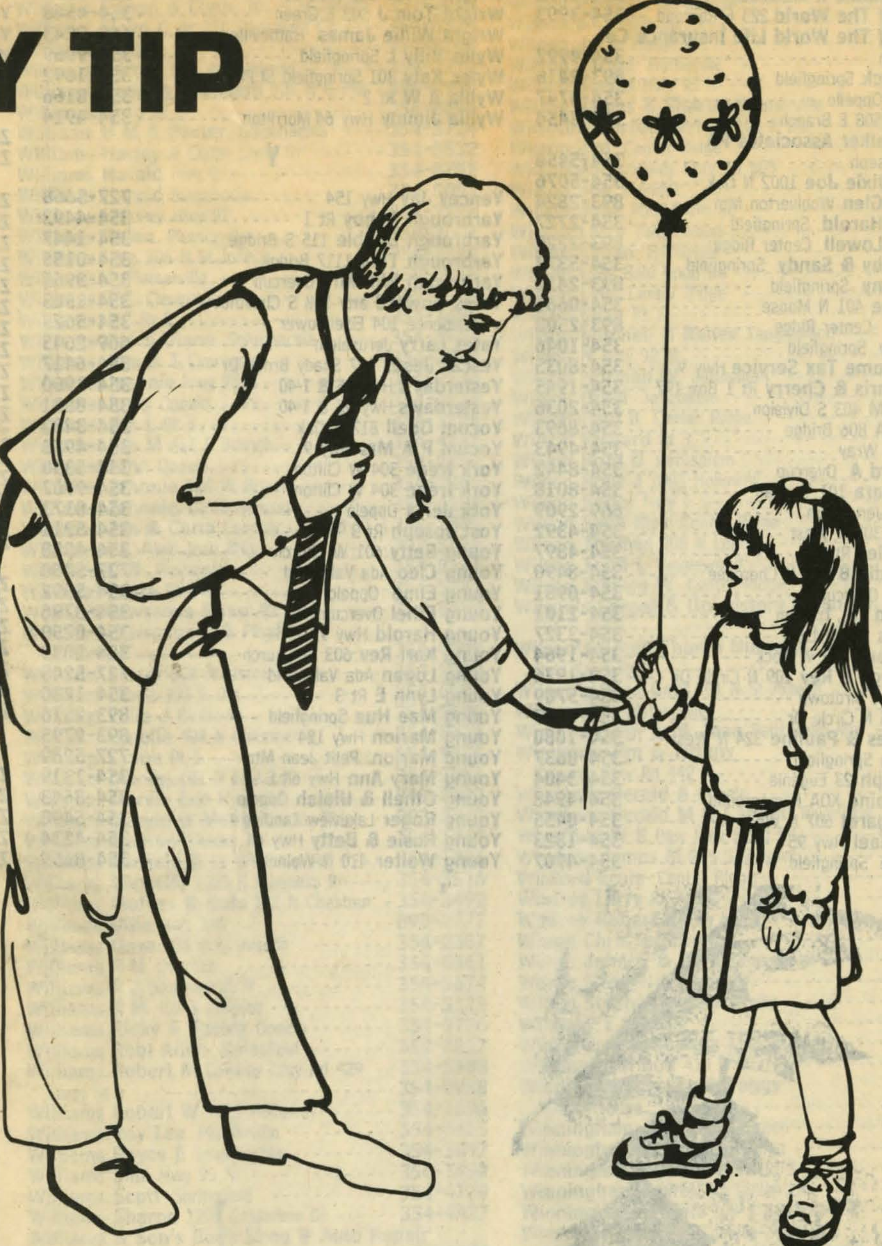
This telephone directory brought to you compliments of GTE

SAFETY TIP



Teach your child not to go with, talk to, or accept gifts from a stranger.

Share good news with
someone you love...
...by phone

Use the phone before the shovel.

Cutting buried cable can be disruptive for hundreds of people by putting phones out of service. So use your phone first to locate cable. Call us before you dig.
